Drawing comes naturally to young children. It is fundamental to their learning. It is a powerful tool that taps into visual, kinesthetic, and linguistic areas of the brain at the same time, and establishes more neural connections than writing or reading alone.

Our art club helps children retain and develop their drawing abilities, sustain their enthusiasm for self-expression. Drawing by hand helps children develop fine motor skills and creativity in a way that using a tablet cannot fully replicate.

Dear Parents and Carers,

We are thrilled to launch our after-school Art Club at The Henry Moore Primary school this coming September.

Designed for children aged 5 to 11, our mission is to nurture, inspire, and develop your child's natural drawing skills. Drawing is fundamental for young children to learn, to remember concepts, and to understand the world. Drawing by hand provides a powerful boost to their development and well-being in a unique way that digital tablets simply cannot replicate.

Through carefully crafted projects inspired by renowned artists from diverse cultures across the globe, children will explore an array of artistic mediums, master new techniques, develop their drawing abilities and sustain their enthusiasm for self-expression and creativity.

The club will take place on Tuesday after school (£12/per session with a block booking of 5 or 6 weeks depending on the academic calendar - all included). You will have the choice to book for the full term or per ½ term.
