

Year 6: Things to look forward to in Summer 2

Dates for your diary:

01.06.26 - Back to school
17.06.26 - 19.06.26 - Cuffley Residential
23.06.26 - Charity Fun Day
25.06.26 - Transition Day (Essex schools)
26.06.26 - KS2 Sports Day
09.07.26 - Transition Day (Hertfordshire schools)
10.07.26 - Walton
15.07.26 - End of Year Performance
16.07.26 - Leavers' BBQ
17.07.26 - Leavers' Assembly (last day)

Maths: Practice makes perfect.

With assessments complete, and secondary school on the horizon, Year 6 will be consolidating all that they have learnt throughout the year in a bid to ensure they are ready to access the challenges of the secondary maths curriculum.

English: Read all about it!

Our final English focus of the year will focus in on recent events that have transpired at The Henry Moore Primary School. There are rumours that some of the teachers are not getting along, and an argument may have broken out between them - all staged, of course!

The children will need to turn into reporters and capture the details of the event before writing a newspaper article on it.

Science: Evolve with every experience.

Children will be going through many changes of their own this year, but they will also look into the past at theories of evolution and inheritance. Children will develop their understanding of variation in genetic make-up, explore adaptations and discuss the theory of evolution by natural selection.

Topic: "You're a wizard, Harry!" - Rubeus Hagrid

After such a busy year, we want our Year 6 children to have *A Magical Ending*. We therefore take on a small Harry Potter project that adopts more of a creative focus. Children will explore the book, the characters, the settings and all things magical.

Language of
the half-term:
French

Art: "Painting is just another way of keeping a diary"
- Pablo Picasso.

Our final art project of the year is a sentimental one. Year 6 children will be recalling their most treasured memories of primary school, using these thoughts as inspiration for their own batik paintings.

The batiks will be shown as part of the leavers' assembly on the final day!

P.E: Let the games begin!

Following on from rounders, children will now test their batting and fielding skills in cricket.

We also have Key Stage 2 sports day on the agenda, where all children will be involved in scoring points for their house!

PSHE: Education is understanding relationships.

Whether we like it or not, the children are getting older and may begin to form closer relationships. As a result, we will hold relationship, sexual and health education sessions.

More detail about the content of these sessions will follow.

RE: You are one of God's greatest creations.

Linking to our science focus, in RE we will debate the following question: Creation or science - conflicting or complementary?

We will be viewing creation through the lens of Christians and Humanists.

Computing: Coding - the literacy of the future?

In computing, we will begin coding and programming our own game based around Harry Potter.
