

KEEPING FAMILIES SAFE ONLINE

We spend more and more time online – browsing, shopping, banking, playing games, sharing photos and videos, social networking... Criminals know this and they are becoming more sophisticated in their attempts to steal your personal information and money. We want you to enjoy the Internet has to offer, but stay safe at the same time.

F-Secure is the leading European internet security software company with over 26 years of experience building award-winning software. We want to keep you safe so we are providing school children and their families with 12 months of free Internet Security, and secure online storage for all your digital stuff.

TOP TIPS FOR KEEPING SAFE ONLINE

INTERNET SECURITY

- Always make sure you have anti-virus protection on your PCs, Macs, smartphones and tablets
- Always keep your system, browsers, applications and security software patched and updated
- Set-up accounts for each member of the family and activate the appropriate Parental controls
- Activate Banking Protection to stop you being redirected to fake sites designed to steal your identity
- Only download apps from official app stores like Google Play and the Apple App Store
- Put a sticker over your webcam when you are not using it. It can be used to spy on you

PASSWORDS

- Always use a different password for each website you login to. Remember these using F-Secure KEY available FREE from the app stores
- Lock your mobile phone, tablet and PC when they're not in use

ONLINE

- Encourage your children to tell you when they are going online
- When they are online remind them never to tell anyone that they are alone

EMAILS

- Warn your children never to open an email from someone they don't know. If they receive emails from strangers get them to show you the email
- If you receive an email from a company asking for personal details about your account then contact the company directly, preferably by phone

FACEBOOK AND OTHER SOCIAL NETWORKS

- Always keep your profile Private
- Remember friends can share whatever you post with the world - so think before you post
- Only connect with friends you know personally
- Be careful talking to someone you don't know online
- When chatting online try not to give out any personal information about yourself
 - especially pictures of yourself, mobile numbers and where you live

CYBERBULLYING

- Remind you children never to tease or say something hurtful in a text message
- If they receive a text message which you find scary or hurtful, ask them to tell you

REMEMBER TO STAY SAFE ONLINE
